

Subject Index—Volumes 214–225

A

- Accident proneness, prevention of, 222:30
- Acetabular fractures, and extrinsic femoral artery occlusion after internal fixation, 217:209
- Acetabular labrum eversion, 215:289
- Acetabular triradiate cartilage injury, 217:179
- Achilles tendon injuries in skiing, 216:63
- Achondroplasia, and creatine kinase activity in cartilage, 219:308
- Acromioclavicular joint
 - complete separations in, 216:80
 - in rheumatoid arthritis, 223:86
- Acromioplasty, conservative, 223:137
- Adhesions after laminectomy, prevention of, 215:296
- Aging
 - and cervical spine changes, 214:200
 - and femoral neck fractures, 218:12, 19
 - and hip arthroplasty for unstable fractures, 224:169
 - and hip fracture incidence, 222:132
 - and lumbar disc and vertebral changes, 224:97
 - and microanatomy of trabecular bone loss, 215:260
- Air embolism in hip arthroplasty, 218:290
- Alkaline phosphatase levels
 - and mineral uptake by femur in hypophosphatemic mice, 222:289
 - in Paget's disease, 217:40
- Altitude, and medical problems, 216:50
- Amputation
 - and stump lengthening with rotationplasty, 216:179
 - traumatic, replantation in. *See* Replantation
 - wound healing in, nutritional status affecting, 217:253
- Anesthesia, and interscalene block for shoulder surgery, 216:94
- Aneurysm
 - false, with arteriovenous fistula after knee arthroplasty, 222:255
 - venous, traumatic, 217:243
- Angulation of long bone fractures, 218:191
- Ankle
 - arthroplasty of, and salvage procedures for complications, 224:244
 - arthroscopy of, 224:228
 - ball-and-socket joint with osteoarthritis, 215:196
 - fracture of, delayed open reduction and fixation in, 215:187
 - malalignment determination in tibial malunion, 223:213
 - tendon injuries from skiing, 216:63
 - unicameral bone cyst of talus, 215:201
- Antibiotics
 - in cement, 222:70
 - and preparation of antibiotic-impregnated PMMA beads, 223:282
 - gentamicin-loaded plaster of paris, 219:278
 - Hickman catheter for, in osteomyelitis, 219:226
 - prophylactic, in orthopedic surgery, 222:69
- Anticoagulants
 - destructive arthritis from, 223:247
 - in knee arthroplasty prophylaxis, complications from, 219:158
 - in venous thromboembolism prevention, 222:100, 108; 223:188
- Antithrombin III in venous thromboembolism prevention, 222:102
- Apatite coatings of hip prostheses, 225:147
- APD therapy. *See* Biphosphonate therapy in Paget's disease
- Arm replantation, functional results of, 214:153
- Arteriovenous fistula, false aneurysm with, after knee arthroplasty, 222:255

Subject Index—Volumes 214–225

- Antithrombin III in venous thromboembolism prevention, 222:102
- Apatite coatings of hip prostheses, 225:147
- APD therapy. *See* Biphosphonate therapy in Paget's disease
- Arm replantation, functional results of, 214:153
- Arteriovenous fistula, false aneurysm with, after knee arthroplasty, 222:255

Arthritis

- and cell receptors for sulfated polysaccharides in synovial joints, 224:105
- degenerative. *See* Osteoarthritis
- disability evaluation in, 221:59
- juvenile chronic, 219:38
- rheumatoid
 - acromioclavicular joint in, 223:86
 - cervical instability in, 221:137
 - elbow synovectomy in, 220:119
 - and knee arthrodesis after arthroplasty, 224:237
 - pustulosis palmoplantaris with, 216:270
 - revision knee arthroplasty in, 219:169
 - symphysis pubis disruption in, 215:105

Arthrodesis

- and cervical discectomy, nonunion in, 223:115
- in cervical spondylotic myelopathy, 221:161
- compression-screw, metatarsophalangeal, 221:292
- of knee, after arthroplasty in rheumatoid arthritis, 224:237
- of shoulder, analysis of, 223:65
- of trapeziometacarpal joint, 220:106

Arthroplasty

- of ankle, and salvage procedures for complications, 224:244
- and delayed postbacteremic infection, 223:194
- experimental infections in, 224:33
- of hip. *See* Hip, arthroplasty of
- and infections from *Mycobacterium fortuitum*, 216:183
- and intrusion characteristics of cement, 215:272. *See also* Cement
- of knee. *See* Knee, arthroplasty of
- prevention of infection in, 222:66
- prostheses in. *See* Prostheses
- and repetitive loading affecting porous coatings, 217:293
- of thumb
 - interposition, 220:27, 99
 - total, 220:35, 77

Arthroscopy

- of ankle, 224:228
- of elbow, radial nerve damage in, 215:130
- of knee, in patellofemoral malalignment, 215:243
- for meniscal surgery in Australia, 224:64
- of shoulder, 223:113

Ascorbic acid in scurvy, 222:3

Aspirin, in venous thromboembolism prevention, 222:101, 109

Arlantoaxial subluxation in Down's syndrome, 220:111

Atlas injuries, 217:257

Australia, orthopedics in, 224:2

arthroscopic surgery, 224:64

carbon fiber reinforced plastic plates in fracture fixation, 224:117

cell receptors for sulfated polysaccharides in inflamed synovial joints, 224:105

cementless ceramic prostheses, 224:18

congenital dislocation of hip, 224:37

function studies in paraplegics with spinal cord injuries, 224:88

Herbert screw fixation, 224:71, 79

Huckstep compression nail in difficult fractures, 224:13

infection in experimental arthroplasties, 224:33

intraluminal allografts in failed hip arthroplasty, 224:26

knee joint meniscus, 224:52

mobility assessment in arthropathy, 224:110

pathologic fracture management, 224:21

Russell traction for femoral fractures, 224:4

threaded pin fixation in slipped upper femoral epiphysis, 224:45

Automobile accidents, prevention of injuries in, 222:21

Avulsion fracture of hand, tension band wiring in, 214:113

Axis

congenital defect of posterior elements in, 216:120

injuries of, 257:217

spondylolisthesis in, 218:195

Azathioprine, and freeze-dried allografts in dogs, 218:259

B

Back pain

in Crohn's disease, 222:174, 181

and disability prevention, 221:121

in disc conditions. *See* Disc conditions

iliotibial band in, 219:4

and lumbar function assessment, 221:99, 110

nonspecific, characteristics of, 217:266

in Paget's disease, 217:152

pain drawings in, 216:124

and predictors of disability, 221:89

prevention of, 222:35

trauma in pathogenesis of, 221:33

Barton's fracture, management of, 214:149

Baseball injuries, disability in, 221:72

- Basketball injuries, disability in, **221:73**
- Bateman hip hemiarthroplasty, polyethylene failure in, **224:147**
- Bending stiffness of tibial fixation methods, **224:289**
- Bennett's fracture, **220:2**
treatment of, **214:121**
- Biodegradable thread for osteotomy fixation, **221:297**
- Biological effects of mechanical stress, **219:238**
- Biomechanics
and cruciate ligament role in knee stability, **215:65**
and elbow hinge-distractor design, **215:303**
of elbow instability, **218:186**
of Kirschner wire point configuration, **214:19**
of Lenox Hill knee brace, **220:179**
of muscle training after cruciate ligament reconstruction, **220:266, 275**
repetitive loading affecting porous coatings, **217:293**
of small bone fixation, **214:11**
and Sorbothane evaluation, **222:281**
and torsion-transmitting properties of hind foot, **214:285**
of trapeziometacarpal joint, **220:14**
in unstable intertrochanteric hip fractures, **225:141**
and wedged insole effects in osteoarthritis of knee, **215:162; 221:181**
- Biophosphonate therapy in Paget's disease, **217:72, 79, 118, 143**
- Birth palsy, microsurgical reconstruction in, **215:233**
- Blood flow
laser Doppler flowmetry, **218:181**
patellar, surgery affecting, **215:254**
- Bone
embryonic, **225:255**
formation affected by macrophages, **220:253**
giant cell reaction of small bones, **214:181**
heterotopic formation after encephalitis, **219:291**
ingrowth affected by disodium etidronate, **215:279**
mineral content measurements
nandrolone affecting, **225:273**
site selection for, **216:262**
morphogenetic protein
bound to hydroxyapatite, response to, **217:281**
in calvarial trephine repair, **219:251**
delivery with β -tricalcium phosphate, **214:295**
subchondral vascularity after loading, **219:259**
trabecular bone loss in aging, **215:260**
- Bone grafts
autoclaved autogeneic segments supplemented with allogeneic demineralized bone matrix, **218:247**
banking of tissue for, **225:17**
electrical stimulations with, **222:275**
fibular
autografts in distal radius reconstruction, **218:232**
freeze-dried allografts in azathioprine-treated dogs, **218:259**
strut grafts for cervical stabilization, **221:149**
in hip arthroplasty revision, **225:22, 37**
freeze-dried allografts in, **216:109**
intraluminal allograft in, **224:26**
natural history of autografts and allografts, **225:7**
in segmental tibial bone loss, **216:162**
- Braces
prefabricated, in ulnar shaft fractures, **219:194**
Wilmington brace in scoliosis, **223:164**
- Brachial plexus
interscalene block for shoulder surgery, **216:94**
reconstruction in birth palsy, **215:233**
- Bursa, iliopsoas, enlargement of, **224:158**
- Bursography
iliopsoas, in hip disorders, **221:238**
subacromial, in rotator cuff tears, **223:51**
- C**
- Calcaneus, lipoma of, computed tomography in, **221:286**
- Calcinosis after chelation therapy in lead poisoning, **219:221**
- Calcitonin, **217:45**
gene-related peptide, **217:45**
therapy with
carboCT in Sudeck's atrophy, **215:217**
in Paget's disease, **217:56, 116, 141**
- Calcium
immobilization hypercalcemia
and osteoporosis, **216:247**
in Paget's disease, **217:115**
intake of, and lactase deficiency with osteoporosis, **215:248**
- Calcium pyrophosphate dihydrate deposition, and cervical myelopathy, **214:217**
- Capsulitis, adhesive, of shoulder, **223:60**

- Carbocalcitonin, in Sudeck's atrophy, **215:217**
- Carbon fiber reinforced plastic plates, compared to metal plates, **224:117**
- Carpal tunnel syndrome
in fractures of distal radius, **215:139**
gouty tenosynovitis with, **216:203**
- Cartilage
acetabular triradiate injury, **217:179**
creatine kinase activity in achondroplasia, **219:308**
embryonic, **225:255**
periosteal neochondrogenesis, **222:267**
repair by cultured chondrocytes, **220:284**
storage by refrigeration or freezing, **218:268**
transplanted hypertrophic chondrocytes, **218:276**
- Casts
hip spica in slipped capital femoral epiphysis, **220:148**
pontoon 90-90 spica for femoral shaft fractures, **219:140**
- Cement
antibiotic-impregnated, **222:70**
preparation of, **223:282**
bone-cement interface in hip arthroplasties, **218:123**
and foreign body reaction to polymeric debris in arthroplasty, **216:213**
in intramedullary fixation of femoral shaft lesions, **221:246**
intrusion characteristics of, **215:272**
laser vaporization of methylmethacrylate, **215:287**
and long-term results of hip arthroplasty, **225:207**
and optimum pore size for bone fixation, **223:296**
pathology from, **225:192**
removal in revision hip arthroplasty, **220:142**
results of PMMA fixation of small osteochondral fragments in dog knees, **223:287**
in revision hip arthroplasty, **225:218**
- Cerebral palsy, contractures in, **219:63, 70**
- Cervical spine
aging affecting, **214:200**
anterior disectomy and fusion of, nonunion in, **223:155**
atlantoaxial subluxation in Down's syndrome, **220:111**
congenital defect of posterior elements of axis, **216:120**
dislocations of, closed reduction of, **214:185**
injuries of atlas and axis, **217:257**
instability in rheumatoid arthritis, **221:137**
in pseudogout, **214:217**
spondylotic myelopathy of, **221:149, 161**
traumatic spondylolisthesis of axis, **218:195**
- Chemonucleolysis
as alternative to laminectomy, **225:229**
chymopapain anaphylaxis prevention in, **221:202**
collagenase in, by epidural injections in China, **215:99**
computed tomography scanning after, **219:120**
patient selection for, **224:125**
- Chemotherapy, preoperative, in osteosarcoma, **224:268**
- Childhood conditions. *See* Pediatric orthopedics
- China, orthopedic surgery in, **215:2**
in chronic hematogenous osteomyelitis, **215:72**
collagenase chemonucleolysis by epidural injection, **215:99**
and cruciate ligament studies, **215:65**
in forearm fractures, **215:56**
manipulative treatment of lumbar disc protrusions, **215:47**
microlymphatic surgery, **215:32**
posterior vertebral instrumentation in scoliosis, **215:40**
radical resection and prosthetic replacement in vertebral tumors, **215:78**
replantation procedures, **215:15**
in sacral tumors, **215:91**
thumb reconstruction, **215:24**
- Chondrocalcinosis, cervical spine in, **214:217**
- Chondrocytes
cultured cells in cartilage repair, **220:284**
hypertrophic, transplanted, **218:276**
ultrastructure in exercise and osteoarthritis, **224:284**
- Chymopapain. *See* Chemonucleolysis
- Cisplatinum, preoperative, in osteosarcoma, **224:258**
- Clavicle fracture, pneumothorax with, **221:212**
- Cleidocranial dysostosis
and congenital pseudarthrosis of tibia, **220:228**
and syringomyelia, **214:229**
- Clodronate. *See* Biphosphonate therapy in Paget's disease
- Cold exposure in winter athletes, **216:55**
- Collagen turnover in Paget's disease, **217:29**
- Collagenase, and chemonucleolysis by epidural injections in China, **215:99**
- Colles fracture. *See* Radius, distal fractures
- Compartment syndrome of leg
chronic exertional, management of, **220:217**
deep venous compromise in, **220:233**
in tibial fractures, **217:221**

- Computed tomography
 after chemonucleolysis, 219:120
 of lipoma of os calci, 221:286
 preoperative, in hip arthroplasty, 222:190
- Connective tissue in immobilization, 221:26
